Comments
I didn't interact much with Keith; I had lots going on and didn't prioritize his sections or office hours. However my experience with him was overall positive and I consider him an excellent instructor.
I think Keith sometimes gave weird explanations when asked questions and the answers sometimes I felt didn't tie back to the actual question. Also, sometimes his answers for questions in office hours were unsatisfactory because he obviously understands the concepts but when learning this stuff for the first time it's less obvious to understand why some things are true.
Keith is a baller. I would've attended discussions more if only I had a break between all the classes I have on Thursday. Including discussion, I'd have class from 11am – 6pm straight.
Keith was a great GSI. He was always very well prepared for discussion sections, and each week kept on pace with lecture and highlighted topics he thought were important. The discussion notes were helpful (although sometimes a little long). While helping with homework questions, he really tried to make sure we understood the question and content instead of just giving out the answers, which forced me to have a deeper conceptual understanding. I really appreciated Keith's effort and engagement in the course; it made a huge difference in my understanding of the material and enjoyment of the course.
explain good care about students.
GSI would benefit from practicing answers to anticipated questions. Often overcomplicated answers to student questions or did not answer them clearly. I liked the printed discussion notes. Practice problems in discussion notes are helpful and the written content aided my understanding as well.
Thank you so much Keith! This is the first class I took that had only one GSI, and I'm sure it was a lot of work for you! I really enjoyed the class, and a big part of that was your very thorough discussion / class notes, your help in and out of office hours, and your helpful answers on Piazza.
He is very well prepared, his discussion notes are very useful, and he is very friendly!
Keith is nice and patient, but it might be better if he could check Piazza more often since he's the only GSI of the class and Professor doesn't have a piazza account.
So helpful in office hours! Appreciate taking the time to check in with every student despite the huge crowd. Great Piazza answers (though sometimes I wish they were posted a little sooner). Thanks for a fantastic semester!!
Keith was great!
Keith is super invested, but isn't always super clear in his explanations— you can tell he really knows the material, but he might try more methods to explain
Thanks man
Thank you Keith for being so helpful this semester! Discussions were really helpful and office hours were useful too.
Keith is extremely enthusiastic about the topic. He is really helpful both in office hours and in discussion sections and I believe he is probably the best fit that could exist for this class!
Great at explaining concepts
